**SALUTE YOUR GUNS!**

## NEW SOLUTION FOR GUN CLEANING

---

Milfoam's flagship product is the patented Forrest foam, the development of which began in 1994. Forrest foam is used to clean firearm barrels of a wide range of calibres. With Forrest, cleaning has become easier and more effective. Forrest is the answer for those firearm owners who demand weapon-cleaning solutions that combine high quality and ease of use.

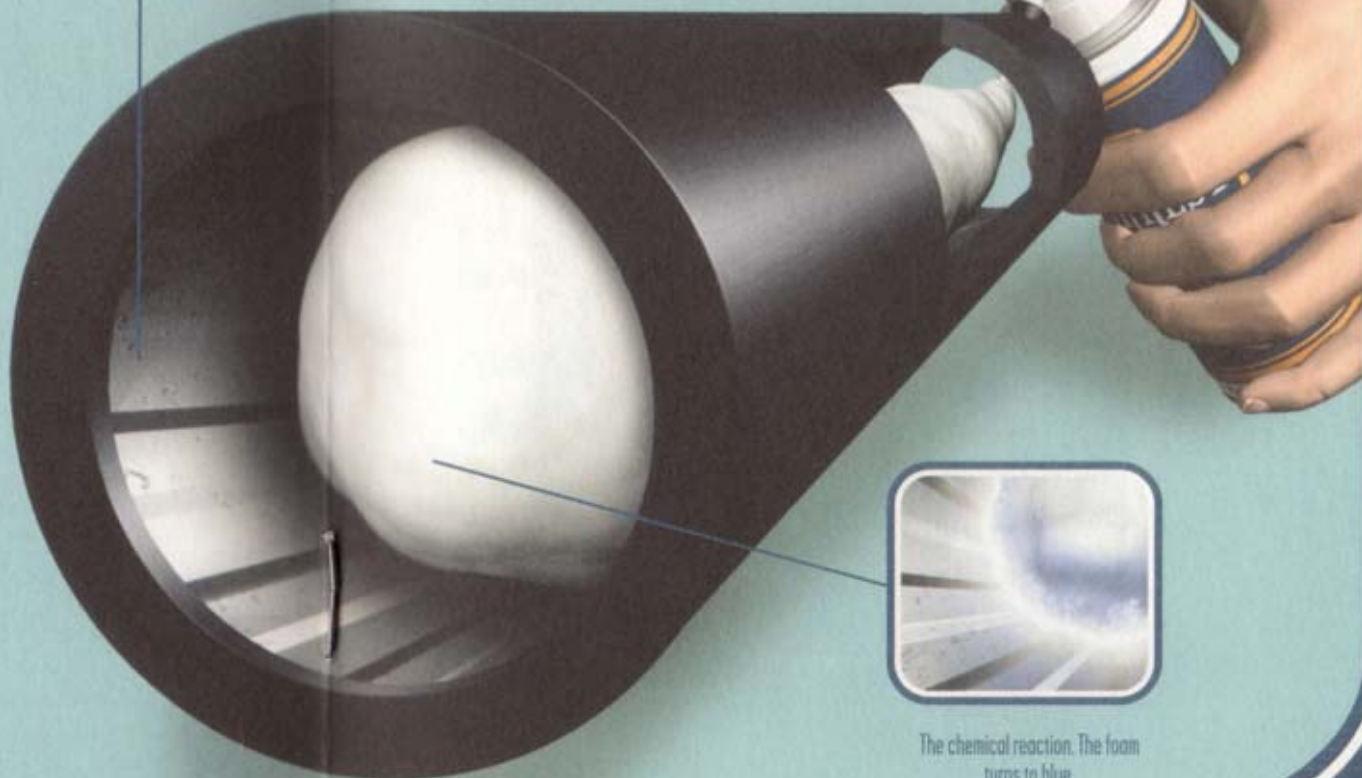

- **Non-toxic copper remover**
- **No corrosive agents**
- **No mechanical cleaning**

## QUALITIES OF THE FOAM

- Non-toxic and odourless
- pH value of 12
- Usable in temperatures between  $-30$  and  $-50^{\circ}\text{C}$ .
- Foam components cause oxidation of copper and brass compounds
- Foam leaves protective film which slows down renewed accumulation of similar residues on the pipe's steel wall
- Foam is considerably easier to use than other cleaning agents, such as ammoniac

Clean barrel without mechanical cleaning, in just 15 minutes.

The chemical reaction. The foam turns to blue.

## FORREST - FOR BARRELS OF ALL CALIBRES

---

Fit for use in barrels of all calibres, from small firearms to cannons.  
One litre of Forrest cleans over 350 times 0.308 rifle.
